Combining Schools to Form Teams:

St. Paul partners with Notre Dame Academy. We always hope to have enough participants for every sport on our own, but if we don't, we will contact Notre Dame to see if we can combine athletes to create a team. In rare cases our athletes may participate with a different school. The Sports Committee will handle the coordination and notify the signed up athletes of which school they can join for a particular sport. Recruiting is not allowed and an athlete may not participate with a different school without approval from the Sports Committee. If an athlete signs up to play for St. Paul and there are not enough participants to form our own team the athlete is NOT required to play for another school. They can choose to not participate at all. However, only athletes who sign up with St. Paul will be offered the opportunity to play for another school.
